

UOS Claim	Name	Description	Source
<p>12 of 14 IDSA Lyme guidelines authors have conflicts of interest.</p> <p>(00:43:29;04)</p> 	<p>Allen Steere, 2006 Lyme guidelines author</p>	<p>Coordinating investigator for clinical trial of SmithKline Beecham vaccine</p>	<p>“Conflicts of Interest in Lyme Disease: Laboratory Testing, Vaccination, and Treatment Guidelines” (Section XI), <i>Lyme Disease Association Inc</i>, 2001 source</p> <p>Minutes of FDA Center for Biologics Evaluation and Research, Vaccines and Related Biological Products Advisory Committee Meeting Transcript source</p>
		<p>Received consulting fees for Baxter vaccine trials</p>	<p>Self-disclosure in “Uphill Struggle,” <i>Nature</i>, February 2006 source</p>
		<p>Received an honorarium of over \$10,000 from Novartis Vaccines and Diagnostics</p>	<p>Self-Disclosure in “High Levels of Inflammatory Chemokines and Cytokines in Joint Fluid and Synovial Tissue Throughout the Course of Antibiotic-refractory Lyme Arthritis,” <i>Arthritis & Rheumatism</i>, April 2007 source</p>
		<p>Sells <i>Borrelia</i> biological samples for use in test and vaccine manufacturing</p>	<p>ATCC The Global Bioresources Center Chain of Custody: A.C. Steere to Gundersen Medical Foundation to ATCC source</p>
	<p>Gary Wormser, 2006 Lyme guidelines lead author</p>	<p>Received \$1.5 million from Pasteur Merieux Connaught to run vaccine trials</p>	<p>“Conflicts of Interest in Lyme Disease: Laboratory Testing, Vaccination, and Treatment Guidelines” (Section V), <i>Lyme Disease Association Inc</i>, 2001 source</p>
		<p>Co-Founder of Diaspex Tests which has patented a Lyme peptide for use in vaccine-compatible test kits</p>	<p>Self-disclosure in “A Critical Appraisal of “Chronic Lyme Disease,” <i>The New England Journal of Medicine</i>, October 2007 source</p>
		<p>Received consulting fees for Baxter vaccine trials</p>	<p>Self-disclosure in 2006 IDSA guidelines source</p> <p>Self-disclosure in 2006 IDSA guidelines source</p>

	(continued) Gary Wormser, 2006 Lyme guidelines lead author	Owns stock in Abbott Laboratories which owns a patent related to Lyme test kits	Self-disclosure in “A Critical Appraisal of “Chronic Lyme Disease,” <i>The New England Journal of Medicine</i> , October 2007 source
		Received research funding from Immunetics	Self-disclosure in 2006 IDSA guidelines source
	Raymond Dattwyler, 2006 Lyme guidelines author	Inventor and applicant of Baxter Lyme disease vaccine patent	U.S. patent 7008625 source
		Inventor and applicant of numerous patents related to Lyme disease vaccine and testing materials	U.S. patent 7060281 source
			U.S. patent 7008625 source
			U.S. patent 7179448 source
			U.S. patent 7179448 source
			U.S. patent 7582304 source
	Owner of Biopeptides which develops vaccines and diagnostics (sold to Baxter)	“Economic Growth,” <i>The Center for Biotechnology</i> , May 2004 source	
	Eugene Shapiro, 2006 Lyme guidelines author	Received consulting and lecturing fees from Pasteur Merieux Connaught Laboratories, Glaxo- Wellcome, and SmithKline Beecham, companies that manufacture products to prevent or treat Lyme disease	Self-disclosure in "Lyme Disease," <i>Clinical Infectious Diseases</i> , September 2000 source
John Halperin, 2006 Lyme guidelines author (continued) John Halperin, 2006 Lyme guidelines author	Owns stock in Abbott Laboratories, Bristol Myers Squibb and Vasogen	Self-disclosure in “A Critical Appraisal of “Chronic Lyme Disease,” <i>The New England Journal of Medicine</i> , October 2007 source	
		Self-disclosure in “Treatment Trials for Post- Lyme Disease Symptoms Revisited,” <i>The American</i>	

		<i>Journal of Medicine</i> , 2013 source
	Owns equity in Schering-Plough which produces Nobivac animal Lyme vaccine	Self-disclosure in "Treatment of nervous system Lyme disease (an evidence-based review)," <i>American Academy of Neurology</i> source
Mark Klempner, 2006 Lyme guidelines author	Applied as inventor of a patent related to the detection of Lyme disease	U.S. patent application publication number US20020187464 A1 source
Durland Fish, 2006 Lyme guidelines author	Serves on the Board of the American Lyme Disease Foundation, which receives royalties from Bayer MaxForce tick repellent sales	Referenced as "Science Advisor" for the American Lyme Disease Foundation in "Tick-killing Products Get Safer" <i>Pittsburg Post Gazette</i> , September 14, 2005 source
	Creator of National Lyme Disease Risk Map which could used in vaccine marketing	"Predicting Outbreaks from Outer Space," <i>BioBulletin</i> , "Dr. Fish hopes the map will enable scientists to recommend whether or not people should get the vaccine," source
Robert Nadelman, 2006 Lyme guidelines author	Ran Pasteur Mereix Connaught vaccine trials	"Conflicts of Interest in Lyme Disease: Laboratory Testing, Vaccination, and Treatment Guidelines" (Section XIII), <i>Lyme Disease Association Inc</i> , 2001 source
Peter J Krause, 2006 Lyme guidelines author	Holds a patent for a test and vaccine related to Babesiosis, a Lyme co-infection	Self-disclosure in "Connecticut Technology Awards: 1999 Report" <i>Connecticut Innovations</i> , August 11, 1999 source
Linda Bockenstedt, 2006 Lyme guidelines author	Yale University, Bockenstedt's employer, receives royalties from OspA vaccine patents (Indirect Conflict)	Yale Office of Cooperative Research source

	Stephen Dumler, 2006 Lyme guidelines author	Inventor and applicant of test and vaccine patent related to for human granulocytic ehrlichiosis, a Lyme co-infection	World Intellectual Property Organization patent WO1998033068 A1 source
	Johan Bakken, 2006 Lyme guidelines author	Received fees from Bayer Corporation which produces Lyme related testing materials	Minnesota Board of Pharmacy payment records source
		President of North Central Chapter IDSA in 2001 when the sponsors of the annual meeting included Aventis and GlaxoSmithKline, manufacturers of Lyme products	Minutes of 2001 Annual Meeting of the North Central Chapter Infectious Diseases Society of America source
